

Please DO NOT change the No Call List provision for Wisconsin citizens. Instituting the No Call List was one of the best things that ever happened for Wisconsin consumers. It is bad enough that banks/credit card companies continue to bombard consumers with unsolicited mail several times a week. Allowing them to resume telemarketing calls will erode the consumer's "right" to be free from annoying and unwanted phone calls. Please continue to provide Wisconsin citizens with the more restrictive No Call List. Thank you!
